WONDERFUL WATCH OF DALHART MAN

Invention Is a Fire Alarm and a Wireless Telephone, Too.

Dalhart, Tex., June 3.—J. G. Otis, local agent for the Denver road, has patented a simple device, which looks much like a watch, and which is so constructed that it is at all times in touch with the master watch at the station. When an alarm is turned on at the station, as many as 100 connections can be made no matter where the person carrying the device is located. It is within a mile, a little bell rings in the instrument. Upon placing it to one's mouth a conversation may be carried on. It is claimed.

MACHINERY ARRIVES FOR BALMORHEA ALFALFA MILL

Haunted From Pecos on Large Tractor Trucks; Mill Being Completed; Music Recital at Pecos.

Pecos, Tex., June 3.—The machinery for the Balmorhea alfalfa mill is being hauled from Toyah to Balmorhea, a distance of 22 miles, by the gasoline and truck outfit purchased by Prof. Welborn for use between Pecos and here. One piece of this machinery weighed 15,000 pounds. Two trucks, loaded with 15,000 pounds each, were attached to the tractor engine, which maintained an average speed of 2 1/2 miles per hour through the trip.

The building for the mill is nearly completed, and will be one of the best in the southwest, being constructed entirely of stone and fireproof material. The engine room is separated from the mill building and connected by a 40 foot line shaft.

A recital was given by the pupils of Prof. Carl Beck, of the music hall, before a large audience.

The Commercial club band, also under the direction of Prof. Beck, played several selections.
